

The Argeneau / Rogue Hunter Series Reading Order

So here's the explanation as to why the reading order is different from the published order. When I wrote the proposal for the series it started with Lissianna's story, then Etienne's story, then Lucern's, then Bastien's. However, Dorchester, my publisher for the first three books, could only purchase three books at the time and chose the brothers. It was their choice to take the brothers and not the sister and their choice to publish them out of order. Now the series is at Avon and Lissianna was the first they published. From now on, the stories will be in order.

Here is the reading order:
